1. निम्नलिखित गद्यांश पढ़कर प्रश्नों के उत्तर दीजिए —

> पानी की हर बूँद कीमती है। हमारे देश के कई हिस्सों में गर्मियों में लोगों को कई किलोमीटर चलकर पानी लाना पड़ता है, जबकि शहरों में नल खुले छोड़ देना आम बात है। पुराने समय में गाँवों में बावड़ियाँ, तालाब और कुएँ बनाए जाते थे, जिनमें वर्षा का जल इकट्ठा होता था। लोग इन्हें साफ़ रखने को अपना धर्म मानते थे।
> आज भू-जल का स्तर लगातार नीचे जा रहा है। यदि हम छत पर गिरने वाले वर्षा-जल को टैंकों या ज़मीन में पहुँचा दें, तो भू-जल फिर से भर सकता है। ब्रश करते समय नल बंद रखना, गाड़ी को बाल्टी से धोना और रिसते नलों को ठीक करवाना जैसे छोटे कदम भी बड़ा अंतर ला सकते हैं। जल बचाना केवल सरकार का नहीं, हम सबका दायित्व है।

(i) गर्मियों में कई लोगों को क्या कठिनाई होती है? [1]
(ii) पुराने समय में वर्षा-जल कहाँ इकट्ठा किया जाता था? [1]

> सुबह-सुबह जब सूरज जागे, खेतों में सोना बिखराए,
> किसान चले हल लेकर अपने, धरती माँ के गीत सुनाए।
> पसीने की हर बूँद से उसकी, फसलें लहर-लहर मुसकाएँ,
> भूखे को रोटी देने का, सपना वह हर दिन दोहराए।
> धूप सहे, बरसात सहे वह, फिर भी मन में आस जगाए,
> ऐसे अन्नदाता के आगे, सारा देश शीश झुकाए।

(i) काव्यांश में किसका वर्णन है? [1]
(ii) सूरज खेतों में क्या बिखराता है? [1]
(iii) किसान का सपना क्या है? [1]
(iv) किसान किन कठिनाइयों को सहता है? [1]

English · Mock Paper 1 · 19 Feb

Class 9 · Reading · Grammar · Writing · Literature (Kaveri Units 1–8)

Test ID: T2027-02-19 · Friday, 19 February 2027

Naam: _____ Samay: 120 min Marks: ___ / 80

Slot: 4:00–6:00

Sections: A Reading (20), B Grammar and Writing (20), C Literature (40). All questions compulsory; internal choices given.
Write within the word limit. Book closed.
2-hour section practice: Section A se shuru; bacha hissa agle din untimed. Ye full 3-hour simulation nahi hai.

Section A · Reading · 20 marks

1. Read the passage and answer the questions.

1. The Indian Railways runs more than 13,000 passenger trains every day and carries over two crore passengers — roughly the population of a large country. Behind this daily movement is a network of about 68,000 km of track, over 7,000 stations and more than twelve lakh employees.
2. Trains have been running in India since 1853, when the first passenger train travelled 34 km from Bori Bunder in Bombay to Thane. Since then, steam engines have given way to diesel and electric locomotives. Today, most of the main routes are electrified, which reduces pollution and saves fuel.
3. The railways also carry coal, food grains, cement and steel across the country. Moving goods by rail uses much less fuel per tonne than moving them by road, so it is better for the environment.
4. New semi-high-speed trains have cut travel time on several routes. Stations are being redeveloped with ramps, lifts and clean waiting areas so that elderly passengers and people with disabilities can travel with dignity.
5. Yet the railways face challenges: overcrowded general coaches, safety at unmanned crossings and the need to maintain old bridges. Passengers too have a role — keeping trains clean and respecting fellow travellers.

(i) About how many passengers do Indian trains carry every day? [1]
(ii) When and between which places did the first passenger train run? [1]
(iii) Name two types of locomotives that replaced steam engines. [1]
(iv) Give one benefit of electrification. [1]
(v) Name two goods carried by rail. [1]
(vi) Why is moving goods by rail better for the environment? [1]
(vii) How are stations being made easier for elderly passengers? [1]
(viii) State one challenge the railways face. [1]
(ix) Find a word in paragraph 5 that means “too full of people”. [1]
(x) What role do passengers have, according to the passage? [1]
[10]

2. Read the passage and answer the questions.

> 1. When thirteen-year-old Tenzin moved from a small town in Ladakh to Delhi, the noise and speed of the city frightened her. In class, she understood the lessons but was too shy to speak. Her Hindi had a Ladakhi accent, and a few students laughed when she answered once.
> 2. Her English teacher noticed that Tenzin wrote beautiful essays. She asked Tenzin to write about her home for the school magazine. Tenzin wrote about apricot orchards, frozen rivers in winter and her grandmother's butter tea.
> 3. The article surprised everyone. Classmates came up to ask about Ladakh — whether it really snowed in April, and how cold minus twenty felt. One of the boys who had laughed apologised and asked her to teach him a few Ladakhi words.
